DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The information disclosure statement (IDS) submitted on April 21, 2006 was filed after the mailing date of the Non-Final Rejection on December 9, 2005. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner. The English translation listed in the above noted IDS is consistent with the examiner's previous position, as pertains to the makeup of an eye structure in the filament winding industry. One of ordinary skill in the art at the time of the invention would not have found it obvious to include the claimed eye structure in the apparatus of Benson.
